Art Unit: 1624

DETAILED ACTION

This is a supplemental action to correct the claims allowed.

Applicants' response filed on 08/29/2003 and supplemental response filed on 12/29/2003, are made of record. Claims 1-4, 9-18, 29, and 34-36 are pending.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In view of applicants' response, all 112 second paragraph rejections made in the previous office action have been obviated. Similarly, in view of applicants' amendment to claim 1 limiting to specific variable groups and providing a Declaration of Nathaniel Monck under 37 CFR § 1.132, all prior art 102/103 rejections made in the previous office action have been obviated. More specifically, the declaration In response to prior art 103 rejections over Mokrosz, over Jonas in view of Mokrosz and over Bos in view of Mokrosz, applicants have shown unobvious results by providing a declaration from Nathaniel Monck which compares side by side the closest prior art compound with the instantly claimed compounds. As can be seen from the Table 1 and Table 2, shown in the declaration, the instant compounds show much higher 5-HT_{2c} activity as compared to the prior art compound. Thus the declaration establishing significantly higher 5-HT_{2c} activity for the instantly claimed compounds is deemed sufficient to overcome the rejection under 35 U.S.C. 103(a) rejections applied in the previous office action The Instant claims are therefore deemed to be novel and patentably distinct.

The tricyclic piperazine compound of formula I, with specific X_1 , X_2 , X_3 , X_4 R_1 , R_2 , R_3 , R_4 , R_5 , R_6 , and R_7 groups, process of making, composition, and the method of use

Application/Control Number: 09/890,186

Art Unit: 1624

to treat obesity embraced in the instant claims was not found to be anticipated or

rendered obvious by the prior art of record. Additional search in the related art area

also did not yield any prior art disclosing the tricyclic piperazine compound of formula I,

with specific X₁, X₂, X₃, X₄ R₁, R₂, R₃, R₄, R₅, R₆, and R₇ groups, process of making,

composition, and the method of use to treat obesity embraced in the instant claims.

Therefore, the examiner noted that the claims 1-4, 9-18, 29, and 34-36 would be in

condition for allowance.

Conclusion

Any inquiry concerning this communication from the examiner should be

addressed to Venkataraman Balasubramanian (Bala) whose telephone number is (571)

272-0662. The examiner can normally be reached on Monday through Thursday from

8.00 AM to 6.00 PM. The Supervisory Patent Examiner (SPE) of the art unit 1624 is

Mukund Shah whose telephone number is (571) 272-0674. If Applicants are unable to

reach Mukund Shah within 24-hour period, they may contact James O. Wilson, Acting-

SPE of art unit 1624 at 571-272-0661. The fax phone number for the organization

where this application or proceeding is assigned (703) 872-9306. Any inquiry of a

general nature or relating to the status of this application or proceeding should be

directed to the receptionist whose telephone number is (571) 272-1600.
